Coding at Home

If you need to download Visual Studio Code to use at home, please use this information:

Getting Set Up	PWR UP	How-To: Create a New Python File (Power-Up Skills)
	LGND	Sign into GitHub/VSCode.dev (Legendary Skills) <i>Note: This is a slightly different process than what we have used in class, but it will be easier.</i>
	LGND	Download Python (Home Use) (Legendary Skills)
	STRT	Install Python in VS Code (Starter Skills)

If you code at home, make sure to **save your files to your flash drive** so you can easily transfer the files to your class computer. If you work in GitHub, your files will save automatically and be available online.
